## FIX-A-BLANKET

PRODUCT #5682

### DESCRIPTION

A jelly-like substance used to swell indentations in printing blankets.

### PRODUCT ADVANTAGES

- Repairs Damaged Blankets
- Saves Money
- No Chlorinated Solvents
- Repair while blanket is attached to cylinder to save press downtime.
- Easy to use

### DIRECTIONS

While blanket is still attached to cylinder, brush Fix-A-Blanket on low spot(s). Wait 2-5 minutes and wash the blanket. If low spot reappears, repeat the procedure allowing Fix-A-Blanket to remain on the blanket for a longer time period.

### SAFETY MEASURES

Read Material Safety Data Sheet prior to use. Always wear gloves and safety glasses while using this product. Do not breathe vapors. Do not ingest. For industrial use only.
