PRESSWASH PWM

PRODUCT #1250

BLANKET AND ROLLER WASH

DESCRIPTION

A strong, hard working, highly water miscible one-step blanket and roller wash product. Competitive with all leading water miscible washes on the market today.

FEATURES AND USAGE

Can be used in all pressrooms. Use full strength or mix with up to 50% water to remove both ink, gum glaze and paper residues from rollers and blankets. When mixed with water, this product reduces emissions and cuts costs. For a product with a pleasant citrus scent, use Presswash PWM Special.

TECHNICAL GUIDANCE

POSCO is happy to provide its customers with technical guidance in the use of its products in solving problems encountered by the pressman in any kind of printing operation, anywhere. Please call and ask for technical assistance.

DIRECTIONS

For rollers and blankets: Use full strength for quick results, or mix with up to 50% water to form a strong cleaning emulsion for effective glaze removal.

BENEFITS

- Cost effective product
- Baldwin approved
- Utilizes unique detergent base which cleans effectively when mixed with water
- Excellent Step 2 rinse in a two step roller wash system
- Can effectively reduce V.O.C. emissions
- Low vapor pressure product

PACKAGING AND NET WEIGHT
