

TECH SHEET POWER PASTE

PRODUCT #7315

DESCRIPTION

A premium roller cleaner, conditioner and glaze remover.

PRODUCT ADVANTAGES

- Works in minutes
- Allows fast color changes
- Saves money by extending roller life
- For use on UV or conventional inks
- Non-Toxic
- Non-Flammable
- Non-Caustic
- Will not harm plates or blankets
- Improves print quality

SAFETY MEASURES

Always study Material Safety Data Sheets before using any product. Keep container closed while not in use. Wear protective gloves and safety glasses while using this product.

DIRECTIONS

Wash ink rollers in a usual manner, then apply a small quantity of Power Paste to the rollers and let the press run for a few minutes allowing the paste to penetrate. Wash Power Paste out of rollers in a normal roller-washing manner. Color changes should be quick and easy after one paste application.
