

TECH SHEET

QUICK CHANGE

PRODUCT #7123

DESCRIPTION

A cleaner, deglazer, and conditioner used on rollers and blankets to help prevent hardening of rubber surfaces. Formulated with a diverse blend of components to enable deep cleaning action during major wash ups or color changes.

PRODUCT ADVANTAGES

- Prolongs Blanket and Roller life, saving money
- Zero V.O.C. (Volatile Organic Compounds)
- Convenient squirt bottle
- Non-Flammable
- Allows for fast color changes (less press downtime)
- Non-Caustic

DIRECTIONS

For Rollers: After moistening rollers with press wash, squeeze a ribbon of Quick Change on top of the distributor roller. Engage wash up unit, then rinse with a rag dampened with press wash. Repeat process if necessary allowing more time for penetration.

For Blankets: Spread Quick Change over a blanket with a sponge or rag and allow time to penetrate and clean ink. Wash off with a rag dampened with press wash.

SAFETY MEASURES

Read and understand MSDS (Material Safety Data Sheet) prior to using Quick Change. Wear proper safety equipment while using this product. Store in a cool area. Keep from freezing.

PHYSICAL CHARACTERISTICS

Appearance: Thick milk shake like emulsion.

Color: Off White

Odor: Mild Faint Chemical

Specific Gravity: 1.10

Flash Point: 154°C

Boiling Point: 99°C

Water Solubility: Not Soluble

V.O.C. (Volatile Organic Compound): 0.00

Container Size: 0.5 litre bottle

Case Size: 12 Bottles
